

INNOVATION ADVANTAGES

- Fast and accurate product design, prototyping and tooling
- Built-in high quality manufacturing readiness
- Experienced in a range of products including:
 - Seat Cushions
 - Armrests
 - Head Restraints
 - Headliners
 - Cargo Trays
 - Beauty Covers
 - Seat Frames

RapidPRO™

Advanced Product Development

RapidPRO™ Advanced Product Development works in concert with customers to optimize the complete product design process. The Woodbridge Group® manages this discipline with a focus on eliminating unforeseen factors that may otherwise be incurred during the late stages of development.

The **RapidPRO™** process offers highly efficient product design, prototyping and tooling, with built-in high quality manufacturing readiness. These services ensure accurate communication among all players, and deliver a product development breakthrough in Speed, Cost and Quality. Woodbridge currently supplies development services for various products including seat cushions, structural components, cargo management, occupant protection and acoustical applications.

Early engineering diligence is the key to the **RapidPRO™** advantage. The design, prototyping, tooling and manufacturing based, cross-functional team approach, minimizes downstream process variation to deliver today's benchmark in product development.

RapidPro™ is another
GreenLite Innovation

GreenLite™
 Low Mass Environmental Automotive Technologies

GreenLite Innovations by The Woodbridge Group include a growing menu of high performance, low mass automotive foam solutions, to help improve fuel efficiency and reduce CO₂ emissions.

More, Better, Faster™
