

INNOVATION ADVANTAGES

- Wide range of grades available for a variety of applications
- Low perm esters available for filter and gasket requirements
- Acoustical foams for sound management
- Medical grade esters to meet toxicity requirements
- Specialty grade ethers for high speed lamination foams applications
- Controlled cell sized foams from 8 to 100 ppi
- Antistatic foams and static dissipative foams
- Anti-microbial grades laminated and thermoformed for shoe insoles
- High density ethers used for abrasive applications
- High density thermo-formed foams for speaker applications
