

## INNOVATION ADVANTAGES

- Top Supplier Of Urethane Backed Composites For Over 10 Years
- Handle All Fabric Types Including Circular Knits
- Material From All Domestic And Transplant Fabric & Vinyl Sources
- Material From Off-Shore Sources (Europe, Pacific Rim)
- State Of The Art Equipment, Bow/Bias solutions for challenging Fabric Patterns
- Proprietary Defect Tracking Systems, On-Line Pinhole Detection
- Seating, FIP Seating, FIP H/R & Armrests Applications
- Backings Include PE Film, Non Woven, Nylon Or Polyester Tricots
- Fully Automated Material Tracking Systems
- Raw Material Reports and Tracking By Roll, Serial Number And Plant Location
- Work Orders Automatically Sorted For FIFO And Shade Control
- Systems Compatible for Full Vendor Of Record Responsibility
- Contract Lamination and Warehousing Options

## StrataBond<sup>™</sup>

Laminated Foams and Fabrics

**StrataBond<sup>™</sup>** flame lamination exposes various foam grades to an open flame, creating a thin layer of molten polymer which bonds to the face fabric and backing materials simultaneously. Products are available for both Foam-In-Place and Conventional trim requirements.

**StrataBond<sup>™</sup>** fabric types include circular knits, domestic and transplant fabrics and vinyl products, from both local and overseas suppliers. Backing options include PE Films, non-wovens, nylons and polyester tricots. Every roll is quality ensured for Bow/bias control and pinhole detection. Additionally, products shipped can be tracked by roll serial number and plant location.

**StrataBond<sup>™</sup>** solutions support automotive interior applications including seats, head-restraints, arm rests and headliners. Laminates are also produced for a variety of medical and industrial applications.

**StrataBond<sup>™</sup>** is another  
GreenLite Innovation

**GreenLite<sup>™</sup>**

Low Mass Environmental Automotive Technologies

GreenLite Innovations by The Woodbridge Group include a growing menu of high performance, low mass automotive foam solutions, to help improve fuel efficiency and reduce CO<sub>2</sub> emissions.

**More, Better, Faster<sup>™</sup>**
