

INNOVATION ADVANTAGES

- Superior appearance
- Crisp definition
- Low to high firmness range
- 2mm thickness capability
- Flat and Round Block options
- Excellent product consistency
- Density range from 24 to 56 kg/m³
- Polyether and Polyester grades
- Technical products
- Acoustical portfolio
- Crushable and recoverable forming characteristics

StrataPlush™
Coverstock Laminate Foams

StrataPlush™ coverstock foams are designed for highly efficient processes, which laminate coverstock foams to all fabric types. Formulations are specifically engineered for wet and dry headliner forming, as well as conventional and foam-in-place soft trim applications. Flat and round bun manufacturing are offered, in both polyether and polyester grades.

StrataPlushHD™ coverstock foams provide all the benefits of standard **StrataPlush™** foams, plus crisp, clean line definition, superior resistance to mottling, higher firmness range and reduced thickness capability, as low as 2 mm, while maintaining outstanding performance.

StrataPlush™ and **StrataPlushHD™** coverstock laminate foams are offered for automotive applications including: headliners, seats, head-restraints and arm rests. Additional grades are produced for several medical products and a variety of industrial applications.

StrataPlush™ is another
GreenLite Innovation

GreenLite™
Low Mass Environmental Automotive Technologies

GreenLite Innovations by The Woodbridge Group include a growing menu of high performance, low mass automotive foam solutions, to help improve fuel efficiency and reduce CO₂ emissions.

More, Better, Faster™
