

THE WOODBRIDGE GROUP®

Mastering Science To Serve Our Customers™

INNOVATION ADVANTAGES

- Sleek design capabilities
- Improved comfort
- Two construction options:
 - Moulded, foam only components
 - Over Moulded, moulded in substrate to eliminate steps in the finishing process
- Eliminates gluing of foam to substrate

TrimLINE™

Advanced Comfort and Style for Thin Profile Trim

TrimLine™ foam solutions help complex slim profiled interior components, achieve new levels of comfort, fit and finish. This specially developed high-resiliency, high-density urethane foam, provides an unparalleled luxurious feel, traditionally not available in sleek, complex designs.

TrimLine™ high resiliency foam offers improved comfort, fit and finish for complex slim profile parts. Available for Arm Rests, Door Inserts, Instrument Panel Components, Center Consoles and Grab Handles. These products can be supplied as a stand-alone component, over-molded on a rigid substrate, to streamline several operations, or as a finished trimmed assembly.

TrimLine™ is another GreenLite Innovation

GreenLite™
 Low Mass Environmental Automotive Technologies

GreenLite Innovations by The Woodbridge Group include a growing menu of high performance, low mass automotive foam solutions, to help improve fuel efficiency and reduce CO₂ emissions.

More, Better, Faster™
